Professional Summary

Motivated Computer Science Engineering undergraduate with a Minor in Artificial Intelligence and a strong academic record (CGPA: 9.5/10). Passionate about Software Development, Artificial Intelligence, Machine Learning, and Web Development. Experienced in developing real-world academic projects using React.js and Python, with a keen interest in problem-solving and continuous learning.

Education

Amity University, Gwalior	2024 – 2028
Bachelor of Technology (Computer Science Engineering)	
Minor Specialization: Artificial Intelligence	
CGPA: 9.5/10	
Central Board of Secondary Education (CBSE)	2023
Class XII – 80%	
Central Board of Secondary Education (CBSE)	2021
Class X – 93%	

Technical Skills

Programming Languages: Java, Python, C, JavaScript
Web Technologies: HTML, CSS, React.js
Database: MySQL
Core Subjects: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, DBMS, Computer Networks
Tools: Git, GitHub, VS Code, Overleaf

Projects

SmartParkingAI — React.js, Leaflet

- Developed the frontend of an AI-powered Smart Parking Management System.
- Integrated Leaflet with OpenStreetMap to display real-time parking locations.
- Built responsive customer and admin dashboards for booking and parking management.
- Designed reusable React components to improve user experience and maintainability.

Brain Tumor MRI Classification using Deep Learning

- Developed a Deep Learning model for Brain MRI image classification.
- Explored EfficientNet, Vision Transformers (ViT), and Explainable AI techniques.
- Evaluated model performance using Confusion Matrix and Classification Report.

Experience

Frontend Developer – SmartParkingAI Project

- Developed responsive web interfaces using React.js.
- Collaborated with teammates using Git and GitHub.
- Integrated interactive maps and dashboards for better user experience.
- Improved frontend performance and application responsiveness.

Achievements

- Winner – HackSetu 1.0 National Level Hackathon** for developing an AI-powered Smart Parking System.
- Maintained an outstanding academic record with a **9.5/10 CGPA**.
- Successfully developed AI and Web Development based academic projects.

- Participated in technical events, poster presentation competitions, and project exhibitions.
- Strong problem-solving mindset with continuous practice in Data Structures and Algorithms.

Certifications

- Java Programming
- Artificial Intelligence Fundamentals
- Web Development Fundamentals

Leadership & Activities

- Winner of HackSetu 1.0 National Level Hackathon.
- Participated in Social Awareness Program organized by the university.
- Participated in Poster Presentation Competition.
- Active contributor in Project-Based Learning (PBL) activities.
- Collaborated effectively in team-based software development projects.

Interests

Artificial Intelligence, Machine Learning, Software Development, Web Development, Competitive Programming, Data Structures & Algorithms, Problem Solving
